DEAR PARENTS AND CAREGIVERS,

At Seaford Secondary College the student is always central to the decisions our school makes. The student cohort determines our teacher allocation and how school resources are utilized. The students’ needs are always reflected in our curriculum opportunities and their delivery. As a school we ensure curriculum flexibility and value the importance of community involvement at both local and global level.

Over the past 3 years, our work has been driven by 3 key beliefs that underpin everything we do:

1. **Students need safe conditions to learn.**
   We have a commitment to consistent responses and this year have allocated additional leaders to the house structures to enable greater support for students in making positive choices. Restorative Practices continue to form the basis for interaction between students and staff and provide a tool kit for problem solving and developing positive resolutions. This is an essential ingredient for developing a culture of mutual respect, building a solid foundation for effective working relationships and positive learning outcomes.

2. **Intelligence is fluid and is underpinned by the knowledge that through targeted intervention, student skill level increases.**
   Student learning is our highest priority and forms the foundation of our commitment to cater for the individual learning needs of all. If a student is experiencing difficulty at school, whether it be academically, behaviourally or engagement, the initial intervention will always examine the needs of the student. Our commitment is to develop students’ growth mindsets, where problem solving, risk taking and challenge are a positive and exciting part of their personal learning and all, value-add to their learning outcomes and assist their preparation for life beyond school.

3. **Students will grow in an environment of high expectations and standards.**
   Our continued focus on targeted intervention and growth mindsets in Years 7, 8 and 9 provides a strong foundation for our students and equips them for the South Australian Certificate of Education (SACE) in Years 10, 11 and 12. Developing purpose in our students, and having insight into their intentions beyond school, enables schools to customise student learning programs and pathways. Vocational Education and Training (VET) courses and specialist subjects enable us to provide a very rich selection of opportunities for students.
THE IMPORTANCE OF COMMUNITY PARTNERSHIPS

We acknowledge the idea that a child belongs and is educated by a village. The employment of a Community Partnerships and Career Coordinator has enabled us to provide this wider support to students by developing partnerships with the local and regional community. Curriculum based excursions provide critical opportunities for our students to make real-life connections between their classroom based learning and the real world. It is important to us that all students attend these excursions as they provide the critical links for rich learning opportunities. If this request is an issue for any parent or caregiver please do not hesitate to contact your child’s teacher with your concerns.

OPEN DAY

Our Open Day was an opportunity for our current and future families and students to catch a glimpse of quality learning in action. Over 400 interested people attended making the day an outstanding success! Between Principal addresses, I did manage to visit classrooms and was mesmerised with the work staff were undertaking with our students.

Four comments from parents that were consistently repeated throughout the day:

- You must be proud of your students.
- Your students are clearly proud of their school.
- Your staff are incredible.
- The school grounds are really beautiful.

I would like to take this opportunity to sincerely thank our staff, students and parents who contributed to making our most recent Open Day such an outstanding success.

ESTABLISHMENT OF THAILAND PARTNERSHIP SCHOOL

It is with great pleasure that we announce that Seaford Secondary College Partnership School is Kantangpittayakorn School, of Trang Province, Thailand. The partnership will allow us to work in collaboration with the school on global projects, send staff from the school on teacher training programs and allow our students to connect with others on a global scale.

Congratulations to staff members Adam Pearce and Hannah Webb for their commitment to the development and continued success of this partnership and our International Program.

STUDENT LEADERSHIP

Our student leaders have been busy this term with the very successful Transition Road show and Open Day, organised by Ms Amy Whyte. Our students have received extremely positive feedback about their presentations and tours and have been excellent promoters of Seaford Secondary College to the wider community.

Student Representative Council (SRC) executive leaders also took part in the Spirit of ANZAC Excursion so they can take an active role in the planning and organising of the opening of our Centenary of ANZAC Memorial Wall.

This term it is Nashwauk House’s turn to raise awareness for a cause. Nashwauk SRC students have been busy working hard with Miss Emma Thistlethwayte, planning to raise awareness for ‘Fred’s Van’ so please listen out to the bulletin for details.

Finally, a big thank you to Mrs Merryn Gomez for lending her photography skills to taking some professional shots of all of our SRC Executive. These pictures will be displayed in House areas so students are encouraged to talk to their School and House SRC reps to facilitate student voice.

FROM THE PRINCIPAL CONTINUED

As part of the Centenary of ANZAC Commemorations, the ‘Spirit of ANZAC Exhibition’ has travelled across Australia. This is an exhibition showcasing artefacts from World War I (WWI) and subsequent battles and is an interactive experience featuring narration of the battles and impact of WWI. Forty-one of our Seaford Secondary College students took part in an excursion to Wayville Showgrounds to see this exhibition. All Year 9 students, (who will study WWI in Term 2) had the opportunity to nominate and our School House Captains and Vice Captains also attended.

Our students enjoyed this experience immensely and learned more about WWI through this fantastic, interactive display. We would like to acknowledge that our students were excellent representatives of Seaford Secondary College, showing great interest and respect while on this excursion — we were proud to receive positive comments from members of the public about our students. Thank you to Ms Bec Morrison and Mr John Jamieson for their help organising and supervising on the day.

Stephanie Johnston, Head of Humanities
BYOD AT SEAFORD SECONDARY COLLEGE

As our students prepare for life after school in the 21st century they require dramatically different skills and abilities than traditional schooling offers. Students need high skills in communication (globally), higher order thinking, designing and creating innovative solutions to problems, accessing and critically reflecting on available information, advanced problem solving skills and being safe and responsible digital citizens.

CHANGING WORLD OF WORK

- Research suggests that 44% of current jobs will be done by computers in the next 10 years
- Young people need to be prepared for new jobs, with 50% needing digital capability.
- This change to careers is as big as the Industrial Revolution

With the DER funding no longer giving students access to one-to-one laptops, it is essential that students bring their own learning device to school to build these valuable skills. Students can bring laptops or tablets to Seaford Secondary College and use our Citrix software, which will give them secure, virus protected access to the school networks and a variety of software that will support their learning. Senior school students can also access a laptop locker for safety when not using their device, and middle school students can access their classroom lockers.

BYOD AT SEAFORD SECONDARY COLLEGE

Please contact Ben Hardy at the school on 8327 5200 for any questions about our Bring Your Own Device (BYOD).

BENEFITS OF USING TECHNOLOGY TO SUPPORT LEARNING

- More focused and therefore greater learning
- Prepares students for the global world through digital citizenship
- Better prepares students for future jobs
- Improves ability to retain information and concepts
- More customised learning at students own pace
- Students improve their digital literacy skills
- Faster feedback to learning from a variety of audiences
- Improves student communication skills
- Allows students to learn from experts all over the world
- Greater supports students with learning difficulties

Ben Hardy, Head of Technology

LEGAL STUDIES TOUR OF PARLIAMENT HOUSE

On Monday 21st March, the Stage 1 legal studies students travelled to Parliament House in Adelaide. There our local Member for Kaurna, Mr Chris Picton MP, personally guided us around Parliament House. We were able to go into both the House of Assembly and the Legislative Council to sit in the same seats as the Premier and his ministers; I was able to sit in the Speaker’s chair. We learnt about the history of Parliament in South Australia and how Parliament works. Mr Chris Picton made the tour enjoyable, as well as informative, and I thought the experience was inspiring.

Nathan, Legal Studies Student

SEAWINDS UNIT UPDATE

The Seawinds Unit had its first Pop-Up Cooking Session with family on Wednesday 22nd March, where we hosted 4 parents and 1 sibling of our students. The students made Poached Egg on Crumpets for the class, staff and their family. This pop-up session allowed staff to catch up with family, as well as giving the students an opportunity to demonstrate their cooking skills and knowledge to their family.

The Seawinds Unit is now a DOJO Class.

The DOJO Class is an online application that allows students to earn points for good behaviour. Parents who download the application are able to keep track of the number of points their child is earning for the class.

Our students have been working hard and they recently earned enough points to have Pizza Day and Milkshake and Ice Cream Day!
We are proud to announce the 2016 Japan Trip to Kyoto and Tokyo, scheduled for late October, 2016. The 2015 Japan trip was incredible, with huge interest being generated amongst students and the wider community. This year students will have an amazing learning opportunity; one week as an International student at Ritsumeikan High School, Kyoto (http://www.ritsumei.ac.jp/fkc/eng).

We also say a sad farewell to 5 Thai students Pandha, Woody, Amy, Prin, Loog Tan who have joined us from weeks 7-10. These fantastic middle school students have really enjoyed their time at Seaford Secondary College, and they too, have made lasting friendships. We look forward to hosting the Thai TIECA study tour group in 2017 once again, and wish these students all the very best for their future.

One of the most memorable experiences we can provide for our International students, is experiencing our unique and exciting culture. Needless to say, a day at Pt Noarlunga Aquatics Centre was a highlight for them all, and we welcomed our 4 full-time International students Takumi, Hitomi, Chane and Rafael to join us. On a perfect day, the students experienced surfing, kayaking, wave-skiing and snorkelling- most for the first time. We are proud to provide them not only with a fantastic academic program, but also opportunities and memories that they will never forget.

Adam Pearce
International Program and Languages Coordinator

We were fortunate enough to host Ritsumeikan High School students last year and provide them with amazing cultural experiences, so we are looking forward to reciprocating their visit and our students experiencing part of their culture. For more information, please email adam.pearce@seafordhs.sa.edu.au

Adam Pearce
International Program and Languages Coordinator

We have had the pleasure of hosting Nozomi, Shingo and Seri from Akashi College in Japan. These friendly and outgoing students were enrolled full time in our Year 11 classes, and over 3 weeks, have formed many life-long friendships. Akashi College is a technical college from Hyogo Prefecture, where students graduate having completed the first 2 years of their University studies. We have enjoyed having them and wish them all the best in their chosen careers of Computer Engineering, Mechanical Engineering and Architecture. Ganbatte!

The 2016/2017 Vietnam expedition is available for students in Years 9, 10 and 11, and is coordinated through Antipodeans Abroad. Antipodeans Abroad is Australasia’s most experienced and much-loved student expedition travel company. They have been safely guiding students and groups through the developing world for over 20 years.

The expedition consists of 3 parts:

**COMMUNITY PROJECT**  RENOVATION PROJECTS WITH HILL TRIBES IN NORTH WEST VIETNAM

Projects are based at village schools in the Mia Chau region, a few hours outside Hanoi. Teams may be involved in decorating/painting classrooms, renovating kitchens, installing water tanks and play areas or building desks and book shelves for libraries. The local village children are always eager to learn English and play sports and games with the students, a highlight of the project!

**TREK**  STUNNING TREKS IN HILL TRIBE REGION

The northwest highlands provide the venue for some spectacular trekking. Teams travel through local villages home to ethnic hill tribes and will sleep in local homestays. This is an opportunity to gain a real understanding of life for these ethnic hill tribe people of Vietnam and taste amazing and authentic Vietnamese food.

**EXPLORATION**  FROM HANOI TO THE MEKONG DELTA AND BEYOND!

Students will soak up the sights of beautiful Hanoi, with its famous Old Quarter, bustling shopping streets and incredible museums. They then can choose to explore stunning Halong Bay, the old Imperial Capital of Hue, Hoi An and Ho Chi Minh city — while taking in the delicious food, great markets and relaxing beaches of this vibrant country.

Students plan every detail of their trip including transport, accommodation, the focus on the project (e.g. rebuilding a school), money etc. The expedition will last for approximately 21 days, with the planning process, including fundraising, beginning Term 2 2016, for departure December 2017.

If you are interested, please contact Adam Pearce, or email adam.pearce@seafordhs.sa.edu.au

Adam Pearce and Hannah Webb, Team International.

**INTERESTED IN HOSTING AN INTERNATIONAL STUDENT?**

At Seaford Secondary College, we have a variety of International Programs where students come from various countries to study here. This includes short Study Tours, or longer Study Abroad programs. All host families receive $250 a week to host an International student, and gain valuable, life-long friendships.

If you are interested, please call the school on 8327 2222, or email Mr Adam Pearce:

adam.pearce220@schools.sa.edu.au

**INTERNATIONAL STUDENTS FROM AKASHI TECHNICAL COLLEGE, JAPAN**

“I was able to have a good time at this school, because the students and teachers are very kind to me, and I think that this school is very beautiful. I think this school is the best school for students. I like the people in Australia. They are very kind to me and good people. Thank you so much for everything, I enjoyed school life here. See you again!”  

---

““The teachers and students are all very kind to me. The way of teaching is very different from that in Japan. I like the dolphins. I am learning very well.”  

---

“In this school we learned with active learning. This way is fantastic. Most students speak Japanese. Now, I am connecting with a lot of Australian students on the internet. So I’ll keep contacting them, they are my eternal friends. Now I want to live here, in Adelaide, because of them. I don’t know how to thank them. Thank you so much, to all of the people involved with me, I’ll be back someday, then I’ll speak English as well. Catch you later!”

---

“I was most pleased to make friends here, students of Seaford are really kind to me and I’m happy to make friends with them. The way of teaching and learning, how to spend lunchtime, animals, weather and architecture...everything was new and interesting for me. The beach in Australia is so beautiful! That became my favourite place. Kayaking and snorkelling are little difficult for me, but I enjoyed it so much! I will never forget the days in Australia. Thank you so much!”

Libby (B19), Hannah (C9) and Brooke (C9) competed in the SAPSASA Onkaparinga South District Swimming Trials held at the outdoor Marion Swimming Centre on Tuesday 1st March. The girls competed in the 50m Freestyle and Breast Stroke events. Libby won her heat in the 50m freestyle and continued on to the final, proving to be a strong competitor. Hannah and Brooke were also valuable participants and proudly represented the school. It was a great day by the pool, well done girls!

Kayla Tilling
Physical Education Teacher

On Wednesday 16th March, we had three Australian Football League (AFL) umpires travel from Melbourne to Seaford Secondary College to run a skills session with 57 interested students. The umpires present included Justin Schmidt (#17, 300 AFL Games), Jonathon Creasey (AFL Grand Final Umpire) and Peter Challen. Students had the opportunity to learn numerous skills and develop an understanding for the three types of umpires; field, boundary and goal umpiring.

The skills session was followed up with a Question and Answer session, where the umpires told stories from their careers and students were able to ask questions about umpiring pathways and other football queries. Jonathon Creasey told the students of the most controversial call he had made and how that impacted on him in the following days. This was a great opportunity for students to gain an insight into the world of AFL, in particular the umpires. I hope to see interested students take this opportunity to umpire within our local Southern Football League.

Ely Haussen
Health and Physical Education Teacher

On the Thursday 10th March, nine students participated in the Aboriginal and Torres Strait Islanders (ATSIs) Community Event, Nunga Tag. This is an annual event that is held at Christies Beach High School for the Aboriginal Community. Students were given the opportunity to speak to members of the National Rugby League, chat with local service providers and collect goody bags, as well as compete against other schools in Tag Rugby games.

Students representing Seaford Secondary College were Jayde, Dean, Alanis, Ty, Kyara, Steve, Nicola, Kyle and Samyde. We played 6 games in total, with 1 win, 1 loss and 4 draws. The students showed a high level of sportsmanship, encouragement, leadership, and most of all enjoyed themselves.

Chloe Wallace and Emma Sewer
Aboriginal Education Team

On Tuesday 8th March, we had a group of students travel to Reynella East College to participate in a Year 8/9 Tag Rugby carnival. The first part of the day involved an intensive skills clinic, focusing on invasive skills and the basic rules of tag rugby. Students improved quickly as they adapted to the game and the different styles of invasive play. At the conclusion of the skills clinic students met Rugby League International Women’s Player, Ruan Sims who talked about development pathways and what it is like to play for Australia.

Students improved quickly as they adapted to the game and the different styles of invasive play. At the conclusion of the skills clinic students met Rugby League International Women’s Player, Ruan Sims who talked about development pathways and what it is like to play for Australia.

Students consolidated the skills they learnt towards the end of the day, through participation in the carnival against multiple Reynella East teams. Our team improved significantly over the day, winning three out of four minor rounds and establishing themselves in the grand final. Although students were unable to finish off with a win, they showed great sportsmanship and were gracious in defeat.

Ely Haussen
Health and Physical Education Teacher
HIGH HOPES

Hi everyone,

I was recently reminded of a maths problem from my early school years. You may have been presented with a similar question: Which is heavier – 10kg of rocks or 10kg of feathers?

It is interesting that we recognise rocks as being heavy, but it is hard to associate feathers with a heavy weight. Life can be like this. We can think of stresses and worries that weigh down on us. Some are obvious heavy burdens that we carry, such as the loss of a family member or a relationship breakdown. Others stresses we can brush off as being insignificant because, on their own, they are not big problems. However, like the 10kg of feathers, the weight of lots of little things can be just as heavy as one big stress. These can be so overwhelming that we can’t think clearly or function in life properly.

It is worthwhile doing an audit every now and then to see how we are really travelling in life. Making time to stand back and look at what stressors are in our life and how they are affecting our ability to enjoy life. Look at what you could do to take better care of yourself – eg good diet, exercise, enough sleep, do something you enjoy like walk on the beach, read a book, coffee with a friend.

If you are struggling with problems in your life, you don’t have to do so on your own. A problem shared is a problem halved. It really does help to talk to someone.

YEAR 9 CLIPSAL 500 FIELD TRIP

Forty-eight Year 9 students travelled to the Clipsal 500 Adelaide for a Geography field trip on Thursday 3rd March. This was an interactive experience for students to use Australia’s largest domestic ticketed motorsport event as a base for learning, fun and growth.

The Aim of the field trip was to enable students to learn and understand festivals/events and identify if they have become proactive in the area of environmental sustainability. Students examined different zones of the Clipsal 500 and what sustainable practices exist. Upon return, students analysed the overall benefits and impacts of this event on South Australia and produced a field report outlining their findings.

It was a great opportunity for students to connect what they have learned in the classroom with a popular South Australian event.

All students represented Seaford Secondary College with pride and cemented this excursion as a yearly event for year 9 Geography studies.

John Jamieson, Bec Morrison, Anita Sharrad
Humanities Teachers

SANTOS ATHLETICS CARNIVAL

On Thursday 24th March, 32 students ranging from Years 7-12 represented our school at the Fleurieu Zone Athletics Day held at Santos Stadium. The day provided a great opportunity for students to participate in a world-class facility and represent the school at a high standard.

Other competing schools included Willunga High School, Aberfoyle Park High School, Reynella East College and Victor Harbor High School.

Lauren (S1), Ashlee (E2) and Grace (C2) received the highest amount of individual points for our school and with the efforts of each individual combined, the team won the Wayne Good Handicap Winners Shield.

I’d like to thank all the students and staff who contributed to making this day such a success!

Kayla Tilling, Physical Education Teacher

LIBRARY NEWS

BOOK SALE
Seaford Library will be holding a book sale in the April school holidays, from Friday 22nd – Thursday 28th April. Come along and grab a bargain. Prices from as low as 20 cents per book!

NATIONAL YOUTH WEEK QUIZ
Seaford Library’s National Youth Week Quiz will be held for in the library at lunchtime on Thursday 14th April.

This quiz is just for Seaford Secondary College students, so grab some friends and register your team of up to 6 people at the library now.

The quiz is a fun way to spend lunch and you may even win a prize! We hope to see you there!

NATIONAL YOUTH WEEK LAUNCH
Onkaparinga Youth in collaboration with many community/youth organisations and services present the National Youth Week Festival ‘REGENERATION’.

This exciting festival aims to celebrate our amazing young people with the annual Youth Recognition Awards and heaps of experiences including music, art, skate and BMX competition, workshops, stalls, recreational activities, performances and more!

When: Saturday 9 April
Time: 10.00am – 10.00pm
Where: Seaford Quarry Reserve, Grand Blvd
